VIRTUAL MEETINGS IN MULTIPLE LOCATIONS

With our virtual event system, all participants will feel that they are present on site, even if they are in the US or Japan. With the help of our technology partner, we offer multiple streaming solutions and virtual spaces - we organize hybrid events that would put Hollywood's greatest sci-fi films to shame.

→ Digital meetings

An uncomplicated telephone meeting or video conference for participants who cannot meet in person.

ADVANTAGES

- efficient set-up
- manageable costs
- low technical requirements

→ Hybrid events

Conference setups that use a combination of technology and web applications to enable not only video streaming but also interactive participation.

ADVANTAGES:

- On-site congress / event
- App-based interface for conference participants
- Connecting external participants and speakers
- Use of streaming services
- Combining different spaces to increase capacity

→ Streaming solutions

(One to many; event to event; many to many)

Sound and images are transmitted to all participants from one site. This can be done locally from one room to the next or online for participants all over the world.

ADVANTAGES:

- many participants possible
- high setup flexibility
- universally possible
- can be combined with face-to-face events

→ Web conference studio

Das Studio-Setup für Webkonferenzen bietet alle technischen Möglichkeiten von Licht und Beschallung bis hin zu Videokamera und IT-Anbindung.

ADVANTAGES:

- On-site congress / event
- App-based interface for conference participants
- Interaction with participants in other locations
- Professional appearance due to visual and technical equipment
